

4th Annual HCS Extended Learning Time Symposium September 29, 2017

Keys to Successful Out of School Time Programing (Maybe a big picture of a Key) "Adding enrichment and technology to support holistic student growth"

Who: Any Hampton based daycare, home school, private school, faith-based program, parks and recreation, chain or small family centers particularly, those that service pre-kindergarten – 8th grade students in any form of before/after-school, tutoring based programs.

Why attend: The symposium will provide an opportunity for programs outside of Hampton City Schools to learn about a variety of enrichments, technology, innovative curriculum resources, games and STEM activities to enhance and support learning opportunities for students; help organizations align academic tutoring efforts with Hampton City Schools goal of "Every child, Every day, Whatever it takes"; to network with other similar local programs to enhance services.

Cost: FREE

Focus: Pre-Kindergarten-8th Grade

When: Friday, September 29, 2017. Registration begins at 8:00am, event 8:15am - 1:45pm

Where: School Administration Center (first floor conference room)
1 Franklin Street, Hampton VA 23669

Parking: Free garage parking is located at the intersection of Old Hampton Lane and History Museum Way

RSVP: Joy Charbonneau at jcharbonneauhampton.k12.va.us or (757) 727-2090 or Please RSVP by September 6, 2017 (Seating is limited)

Group A

Registration/Refreshments 8:00 a.m. - 8:15 a.m.

Opening Session (Hampton Veterans Conference Rooms A/B): 8:15 a.m. – 9:20 a.m.

- **Welcome & Introductions**
Daryle Rodgers, Ann Bane, Dr. Smith (approx. 5 minutes)
- **How your program can support the Academies of Hampton**
Veroninca Hurd (approx. 10 min)
- **Keynote**
Dr. John Hodge (approx. 45 minutes)

Break/Vendor Tables 9:20-9:30 (Divide 1st Floor Room A and B)

Breakout Session I: 9:30-11:25 (Each Session is 35 minutes; all participants can rotate to all three breakout sessions block. Extra time is built in to allow for approximately 5 minutes switch time per session).

9:30-10:05 (1st Floor Hampton Veterans Conference Room A) How Fun, Project-Based Literacy Develops 21st Century Skills! This interactive session explores how a project-based methodology using wordless images supports the development of 21st century, social-emotional and metacognition skills in an engaging, non-intimidating manner. Through immediately applicable instructional strategies, participants learn how to expand students' writing, reading and public speaking skills, elevating self-esteem, empathy and resilience. The session will be entirely hands-on, with participants playing an active role throughout!

Meredith Scott Lynn & Julia Gabor, WRiTE BRAiN Books

10:10-10:45 (1st Floor Hampton Veterans Conference Room B) Technology Education: Utilizing technology to enhance your out of school time programs through digital learning.

Jennifer Lockett, Sherry Sanders, HCS Information Literacy Department

10:50-11:25 (2nd Floor Conference Room) Utilizing the "Human Resource" in Your Language Arts Program:

With over 20 years of classroom experience, and 60 hours of course work training to become a certified Associate Level AOGPE Tutor, Latosha B. Davis "Tosha", will provide you with practical ways to utilize support staff to help effectively improve reading instruction for individuals with reading, writing, and spelling difficulties.

Latosha Brown-Davis, Former HCS Teacher of the Year (Bassette E.S.), Agope Associate Level Certified

Breakout Session II: 11:30-1:25 (Each Session is 35 minutes; all participants can rotate to all three breakout sessions per block. Second session groups will start in the room that their first session ends in (no room change). Extra time is built in to allow for approximately 5 minutes switch time per session).

11:30-12:05 (1st Floor Hampton Veterans Conference Room A): STEM-ulating young minds

How to encourage a discovery mindset in your program?

Children are born naturally curious. Use that curiosity to develop a discovery mindset. "Jupiter" Jen Marcus from Mad Science of Hampton Roads will show you just how fun and easy it is to expose children to Science, Technology, Engineering and Math (STEM) concepts in your daily routine. She will give you ideas for incorporating STEM activities into your program at low or no cost, as well as tell you about the programs Mad Science offers. **Jennifer Marcus CEO, Mad Science**

12:10-12:45 (1st Floor Hampton Veterans Conference Room B) Mindfulness:

Mindfulness has been shown to increase attention, reduce stress, help with impulse control, decrease anger outbursts, increase social and emotional skills, develop empathy of others, increase a sense of calmness, increase self-esteem, and increase quality of sleep among many other benefits. In this session participants will learn the concept of mindfulness and techniques to use in their personal life and in their work with children and youth.

Shireen McHenry, Charles Robinson Alternatives, Inc.

12:50-1:25 (2nd Floor Conference Room) Career Development in HCS:

This session will share how HCS counselors are preparing students at all levels for Academy selection and what you can do with students outside of school to help them with college and career readiness.

Carla Mahn, Student Development & Counseling
